## RE: Council Query – Community Liaison [Lacombe Police Service]

Thank you for your inquiry relative the Community Liaison Officer at the Lacombe Police Service. One of the duties of this position is to liaise with community groups including the Lacombe Community Watch Association, social services, community agencies and non-profits, businesses and community stakeholders.

Your inquiry also included a suggestion for collaboration between the Lacombe Police Service and City administration, including Information Technology Services and our Communications Department. I can assure you that there is ongoing collaboration between LPS and Administration. Certainly, we would be open to exploring opportunities to expand this collaboration for a shared community benefit – I'm not aware at this time of any outstanding requests for service from LPS to Administration.

I hope this satisfies your inquiry – please feel free to email or call me if you'd like to discuss this matter further.

Sincerely,

FOIP Act section 17(1)

Matthew Goudy, P.Eng  
Chief Administrative Officer
