RE: Ponding in English Estates

Thank you for your query into the annual spring ponding adjacent your property. I have reviewed the situation and visited the site of the ponding. This situation must be very frustrating for you to deal with every spring melt. Jordan Thompson, Director of Operations and Planning indicated to me that you observe pedestrians walking in the middle of the road this time of year to get around the flooding.

I can confirm that the roadwork planned during the 2019 construction year will include measures in this area to alter the flow of meltwater towards the nearest storm drain, and at last direct drainage away from your corner sidewalk. These measures include raising the sidewalk along Knightsbridge Road, the construction of a concrete swale, and rebuilding the Knightsbridge Road/Hathaway Lane intersection.

Should you have any further questions about the planned construction, don't hesitate to contact Jordan Thompson, Director of Operations and Planning (403.782.1268, or jthompson@lacombe.ca)

Sincerely,

FOIP Act section 17(1)

Matthew Goudy, P.Eng
Chief Administrative Officer
