RE: Patrol of Soccer Fields in NW Recreation Area

Thank you for your query into the patrols at the soccer fields.

Bylaw Enforcement Services staff have been directed to increase patrols at the soccer field in the northwest section of the City.

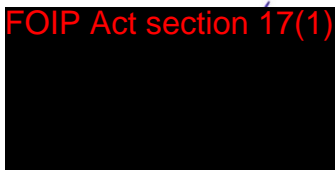

Not removing defecation by animal owners is a violation of the Responsible Animal Ownership Bylaw and is to result in an immediate ticket without warning.

It is unfortunate that some residents are not responsible animal owners and the outcome is at the expense of actual users of the fields. Bylaw Enforcement Services will be in the area more frequently.

I hope this satisfies your inquiry – please feel free to email or call me if you'd like to discuss this matter further.

Sincerely,

FOIP Act section 17(1)
