RE: City Parking Stall Delineation

Thank you for your written concern regarding the lack of painted line markings to delineate parking stalls in the downtown area. We are pleased to report that parking lines will be painted on 50th Street between 50th Avenue and 51st Avenue very soon. The Roads Department has arranged for a contractor to paint angled parking lines on the east side of 50th Street and parallel parking lines on the west side of 50th street. The work is expected to take 1-2 nights during the week after May long weekend (May 21-24) – weather dependant. The work will also occur overnight between the hours of 11pm and 7am to eliminate the need to implement parking restrictions during normal business hours.

Thank you again for expressing your concerns so that I could provide you and others with this information.

Sincerely,

FOIP Act section 17(1)

Matthew Goudy, P.Eng
