## RE: Wolf Creek Drive Speed Limits

Thank you for your comment regarding speed limits on Wolf Creek Drive. Upon further review, it was confirmed that two speed zones exist on Wolf Creek Drive:

- 50 km/h signage is in place for both directions of traffic flow from 50 Ave (Hwy 12) to 80 meters north of 52 Ave
- 60 km/h signage is in place for both directions of traffic flow from 80 meters north of 52 Ave to Hwy 2A

We conducted a historical record search and were unable to find any official accounts of any changes to the speed limits in this area. Anecdotally I'm told by staff that the speed limit on Wolf Creek Drive was historically 60km/h but as the Wolf Creek Industrial Park Developed, a new 50km/h speed zone was established for the approximately south ¼ of the road.

The 60km/h speed limit appears to be an anomaly in the Wolf Creek Industrial Park. However, since it has not been brought up as a concern in the past to my knowledge Administration will recommend the speed limit be changed to 50km/h coming out of the speed limit review scheduled for 2021.

Sincerely,

Matthew Goudy, P.Eng  
Chief Administrative Officer
