

Naming of Parks and Playgrounds

Policy Number: 75/717.01 (04)
Adopted: Nov 8/04

In order to distinguish each of the parks and playgrounds in the Town of Lacombe the following guidelines will be used in the naming of presently unnamed or new parks or playgrounds:

1. Parks/playgrounds will be named according to the subdivision in which it is situated
2. Parks/playgrounds that are funded by a local organization/service club may have the name of the organization/service club included in the site name. At the time of rehabilitating of older parks/playgrounds in order for the organization to maintain its name in the site name there is an expectation the organization/club will be a partner in the funding of the rehabilitation.
3. Parks/playgrounds may be named after an individual who has made a significant contribution to the community
4. Parks/playgrounds may be named according to a significant event (ie. Centennial)
5. Parks/playgrounds may be named after a deceased historical figure who is deemed to have contributed to the community or has a historical connection to the site being named.
6. In case of some ornamental or smaller sites it may not be deemed necessary to name the parks.
