MAIN improvements

The 2017 Main Street Improvements construction begins on Monday, April 24, 2017. Rolling detours are in effect from April 26 – 29 as the asphalt surface on 50 Avenue is milled from Highway 2A to 53 Street. Temporary line markings will be painted to identify crosswalks and centre line once milling is complete.

Stage One road closure and detours are in effect starting April 24. Proactive measures have been taken to ensure that continuous water service is available to businesses throughout the construction period.

ATCO Gas crews are working in the intersection of Highway 2A and 50 Avenue from April 24 - 27 to decommission an old gas main on 50 Avenue.

Detours to Wolf Creek Drive and 47 Avenue are in place, as north-bound traffic on Highway 2A is restricted to one lane. No east-bound traffic is permitted through the Highway 2A/50 Avenue intersection until ATCO crews complete their work on April 27.

Please note that 49 Street, between 50 Avenue - 51 Avenue, will be converted to a two-way road (no access to 50 Avenue) and perpendicular parking stalls will be painted on the east side of the road this week.

The following tasks will also be undertaken as part of Stage One construction this week:

- hard construction fencing will be installed
- saw-cutting a portion of the sidewalk closest to the road
- asphalt removal

Excavation is scheduled to begin late next week or early the following week.

Please go to Lacombe.ca/mainstreet for pedestrian access maps, parking location maps, detour maps and other project information.
